### Natural Resource Projects & Practices ➤ Riparian Improvements

The Clear Creek Private Bridge Project will repair damages to the private bridge from the 2019 flood events in Clear Creek in Idaho County, Idaho. In addition, the project will restore stabilization to the bank below the bridge. The total length of stream restoration is 1,000 feet. These mitigation efforts will finally address the flood damages that have been pending for the past two years. The project is located on Clear Creek approximately 11 miles Southeast of Kooskia, Idaho.
